

the juggler the suitcase

Everything gets out of balance here. An eccentric number without gravity Suitcase, hat, cane, tipping and Jacket - everything is now out of bounds. It is the mixture of fast paced game, crazy juggling and unexpected acrobatics, which puts every audience in a bright excitement. "That's like in old movies!" A very versatile artistic performance with loving charm.

Like a movie of the past days. A man with hat, umbrella and melon. Joy Burger plays with these completely different flying objects in an amazing way and enchants its audience with wit and charm. How by the way some original tricks, however, present their difficulty to the viewer, not take his breath, but smile at the weightlessness of being to share. Rather a juggling actor than a classic juggler. And more a never-ending entertainment than a technical feat.
